SUMMARY

MCA student with backend and full-stack development experience using the MERN stack. Skilled in building scalable web applications, REST APIs, and real-time systems. Hands-on experience with authentication, databases, and performance optimization. Actively preparing for software engineering roles with a focus on backend development.

EDUCATION

Uttaranchal University, Dehradun

Master of Computer Applications (Pursuing)

2024 – 2026

Dehradun, Uttarakhand

BRABU Muzaffarpur University, Muzaffarpur

Bachelor of Computer Applications

2021 – 2024

Muzaffarpur, Bihar

RELEVANT COURSEWORK

- DSA
- Operating Systems
- Oops Concepts
- Computer Networks
- Cloud Computing
- Software Engineering
- DBMS

INTERNSHIPS

Summer Intern at Hitbullseye [↗](#)

June 2025 - July 2025

Role - Summer Intern

Remote

- Successfully completed a 45-day Summer Internship Programme as part of the MCA curriculum.
- Gained practical exposure to aptitude training, logical reasoning, and problem-solving techniques.
- Participated in structured learning sessions aimed at improving analytical thinking and career readiness.

PROJECTS

Anonymous Message App | Next.js, NextAuth, JWT, MongoDB, OpenAI

2026

- Developed an anonymous messaging platform where users receive feedback via a unique shareable link.
- Implemented secure authentication using NextAuth with JWT strategy and bcrypt password hashing.
- Built a private dashboard for users to manage and view anonymous messages.
- Integrated OpenAI API to provide AI-powered message suggestions for improved user interaction.

E-Commerce Application | MERN Stack, JWT, Online Payments

2025

- Built a full-stack E-commerce web application using the MERN stack.
- Implemented secure authentication and checkout using JWT and payment gateway integration.
- Developed product listing, cart management, order tracking, and admin dashboard features.

Fresh Food Donation System | MERN Stack, MongoDB

2025

- Built a platform to connect food donors with NGOs for sharing extra food.
- Created APIs for donation requests and pickup scheduling.
- Used MongoDB for storing user and donation data.

TECHNICAL SKILLS

Languages: Java, JavaScript, TypeScript, SQL

Technologies/Frameworks: HTML, CSS, React, MongoDB, Express.js, Next.js

Developer Tools: VS Code, PyCharm, IntelliJ, Git, Antigravity

CERTIFICATIONS

Internshala Web Development Training – Final Score: 84%

Gained hands-on experience in HTML, CSS, Bootstrap, JavaScript, PHP, and React.js.

Worked on practical mini-projects and explored AI integration in web development.
